**Subject:** Microsoft Settlement

I would like to register my comments in favor of the proposed settlement. I have read through terms of the settlement and feel it is fair resolution of the dispute, and provides sufficient ongoing monitoring of Microsoft practices in the future. I realize that there are competitive interests to whom no settlement would ever be satisfactory, as long Microsoft continues to be in business at all, and we must take this into account when listening to these opposition voices. I ask that the settlement be accepted, because it is in the best public interest to do so.

Thank you,  
Sincerely,  
Julie Kirk
